

ONLINE TELEGRAPHIC TRANSFERS.

Send money overseas anytime, from anywhere!

A new service available through our Internet Banking.

You can now use our internet banking service to reliably and conveniently send money overseas to more than 200 countries and territories, in over 40 different currencies.

If you can't make it into a branch, or need to send money overseas on the fly, you can easily make an International Telegraphic Transfer (TT) using our online banking service via your computer or laptop.

Simply log on to your online banking account, go to the Transfer tab and select International Transfers. The country specific information and 'help text' will guide you through your transfer from start to finish.

What else do I need to complete my TT?

For all International Transfers, prior to finalising your transfer, you will be prompted for an SMS, ensure you have your mobile number registered with us and handy so when you click "GET SMS" you can enter the six digit code to finally complete your transfer. If you do not have your mobile registered with us you will need to contact us on 1300 665 553 to update your details.

What is a Telegraphic Transfer (TT)?

A Telegraphic Transfer (also known as a "Wire") is an electronic transfer of funds directly credited to a beneficiary's overseas bank account. A choice of more than 40 currencies is offered - [click here for more details](#).

Why should I use a TT?

In most cases a TT is the quickest way to send funds abroad (a TT will normally take one to two business days to reach the beneficiary), and is a reliable way to send funds to a bank account internationally.

Sending a TT in the beneficiary's currency is usually more cost effective and helps ensure the funds are credited more quickly, as the payment can go "straight through" – [click here for more details](#).

What details do I need to send a TT?

You will need to provide full details of the beneficiary's bank account, including their IBAN (International Bank Account Number) if they are in Europe.

To comply with Australian Government regulations you must also provide the beneficiary's full street address.

Please note that TT's are sent via a network of correspondent banks, which sometimes levy a small handling charge on your payment. Any such fees are out of Woolworths Employees Credit Union and Western Union Business Solutions control. Given that a network of banks is used to complete your telegraphic transfer, the time it takes for your payment to be credited cannot be guaranteed.
